

Enterprise-grade VoIP phone systems providing flexibility, modularity, and no per user license fees

Vehicle dealerships are characterized by a mix of operations that include new and used vehicle sales along with a variety of service functions. Increased product offerings and a growing dealership network create more complex operations and introduce new management challenges.

Ease of Use and Cost Reduction

Unlike proprietary systems, CompletePBX for Vehicle Dealerships eliminates the need for layers of support and per extension license and maintenance fees. CompletePBX simplifies communications management and reduces costs by converging voice and data services over a single channel.

CompletePBX for Vehicle Dealerships supports the following features:

- Customized inbound call routing for fast and efficient call processing
- Full integration with existing or new external paging systems
- Cell phone and smart phone integration
- Interconnection of various dealerships to provide desk-to-desk dialing and seamless call transfer between locations
- Extensive call reporting
- Call monitoring and recording
- Integrated call accounting software
- Redundancy through Xorcom's TwinStar™ hot failover capability to maximize business continuity

Xorcom CompletePBX Software

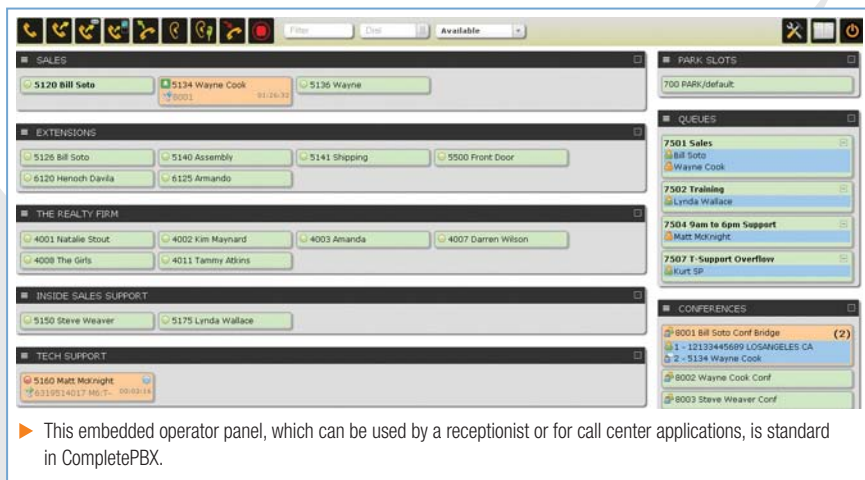

Increase your organization's efficiency, productivity, and profits.

CompletePBX means seamless integration

- Reduce upgrade costs by using existing IP telephones or SIP (Session Initiation Protocol) clients.
- Easily integrate third party products via the open application programmable interface.

CompletePBX is based on open source software

- The only commercially-supported open PBX that provides root access to certified dealers and end users for total local control of the telephony system.
- Xorcom has stabilized the software and upgrade process and is the sole source for support, maintenance, and upgrades.
- An embedded operator panel, which can be used by a receptionist or for call center applications, is standard.
- Enhanced CDR (Call Detailed Records) and call center reporting software is available at a flat rate.

CompletePBX supports the TwinStar hot failover solution

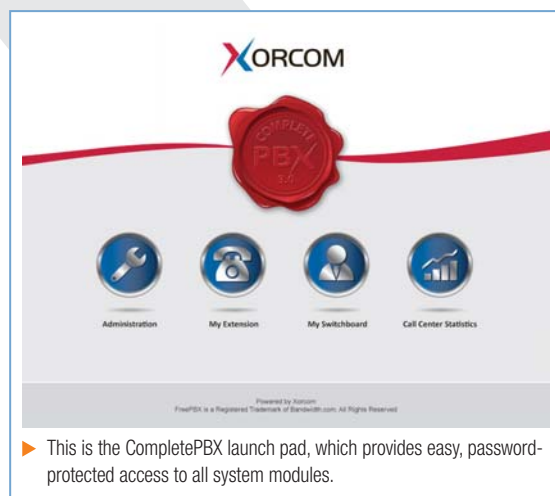

- Xorcom's TwinStar is the world's most cost-effective full redundancy solution for IP PBXs, ensuring maximum business continuity.

All CompletePBX systems come with a wide array of standard features including:

- Unlimited Extensions, Voicemail Boxes, Hunt Groups, Call Center Groups, and Auto Attendants/IVRs
- Voicemail and Fax-to-email
- Call Recording
- Call Barge and Whisper
- Find Me/Follow Me
- Free Softphone Integration
- Free Smart Phone Integration

Xorcom CompletePBX is a reliable, flexible, cost-effective communications solution that provides a customized user experience for each role in the organization.

Xorcom CompletePBX is distributed only through the Xorcom Certified Dealer channel by partners who are experienced in IP telephony implementations and who have completed the Xorcom certified training course.
